Since its start in 2010, Festival Nrmal, founded in Monterrey city, and since 2014, also running in Mexico City, has focused on presenting a fresh, purposeful and edgy musical programming, with emphasis on the power and quality of live acts, rather than its impact on the musical market. Every year, the festival becomes the meeting point of an audience eager for different sounds, in a context in which having extraordinary experiences and closeness among all the participants are the priority.

For its sixth edition, Festival Nrmal presents a lineup confirming its affinity for projects that take further, with risky innovation, established sounds. In resonance with the wide sound range of the Mexican line up for 2015, the international coordinates are pretty global, with projects arriving from Argentina, Chile, Colombia, Puerto Rico, Costa Rica, Mexico, Sweden, Brazil, Spain, Syria, Australia, Germany, Canada, France and the United States.

Many of these projects come to Mexico through the partnership with cultural institutions such as French Embassy, Flotar (MX), Harmonipan (BR) and Goethe-Institut Mexiko (DE / EN). In addition, as part of an emerging circuit this year, Festival Nrmal collaborates with the following festivals: All My Friends (Tijuana, Mexico), Neutral (CL), Epicentro (CR) Hermoso Ruido (CO), Bananada (BR), Visions Festival (UK) and Viva Pomona! Two international festivals presents talent this year: Kirin J. Callinan and HTRK are programmed within #FestivalNrmal via Sugar Mountain Festival + Siberia Records (AU) and a showcase presented by the Austin Psych Fest.
